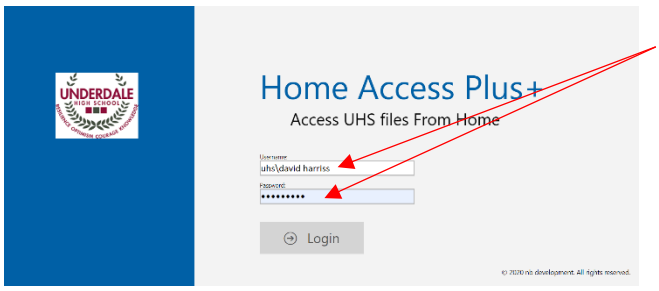
1. Accessing School Drives from Website

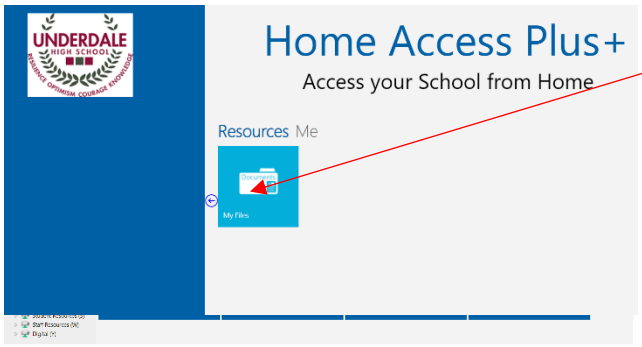
Students and staff can access their school drives from home, (staff can access W-Drive and others as well).

Click on HOME ACCESS +



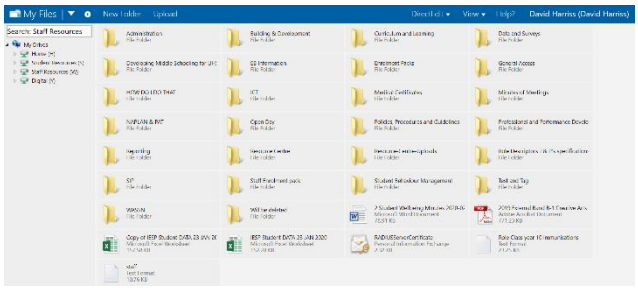
Same Username and Password as for DayMap (Students and Staff).

Login



Click on My Files

Students should see their own drives and the student resource drive. There may not be much stored in here unless students have used them in the past.



Teachers and other staff can see this.

For staff, all of W-Drive is available for you to access, and other drives may be available too.
